ABRASIVEN

GRUPO CORPORATIVO ABRASIVEN C.A.

Technical Data Sheet

Art.no: ABRA-122.00 Sanding Screen with Velcro (Silicon Carbide)	
Composition	Backing: Mesh screen, back laminated with open-mesh velcro
	Bonding: Resin over resin
	Grain Type: Silicon carbide
Grit Range	P40 - P320
Specification	150mm (6") sanding screen, velcro backed
Manufacturing process	Mesh Preparation---Abrasive Coating---Drying & Curing---Velcro Lamination-----Cutting & Shaping----Quality Inspection---Packaging & Storage
Application	For sanding drywall joints and patching compound to fine finish.
Advantages	1. High grinding efficiency, fine chip removal. 2. Excellent water tolerance and long service life. 3. Cost-effective alternative to premium net discs.
